Kimball Stray Thoughts/Winged Words By Zakiah Sayeed "Stray Thoughts/Winged Words" is a book of love songs - not only distant, or close, or soured lovers, but also of a love of life. It is also the prize of love from the privileged few who are reflective are able to experience and then share with others. It is a combination of poems and narratives with insight, humor, and floods of compassion. Her empathy, from a left brained doctor, is amazing and rare. She mixes her recollections of her growing up in India with her experiences in the Midwest making you realize that we are all the same in our emotions and feelings and values. With her narrative on hugs for children going off to college, after grabbing you by your heartstrings, she subtly turns it around into a reflective of questioning too late her own mother's feelings as she went off to college and then to the United States. Her ability to empathize is shown in that her poems may be from a woman or from a man and will include grandsons, brothers, co-workers, patients, friends, and the vulnerables viewed throughout our lives. As you read these poems, you will get such an urge to share them that you realize that many of these are meant to be read aloud to a special someone in your life. She is adroit in creating beautiful new word-images and metaphors such as "these hands flutter/like a butterfly with clipped wings", and "Ugly memories/Weave through my neurons/Like bad thread through a rug." These are the reflections from a reflecting soul. One is invited to enter a dream world of love and lovers without the constraints of time or space. She is a poet who truly loves life, and recognizes the ironies of love and life. These poems and narratives are a love fest and a sensualist's delight as she describes new worlds of sights, sounds, songs, smells, and compassion. In this volume of beautifully written prose and poetry, be prepared to experience both the laughter of delight and the tears of painful memories as you experience vicariously the deep emotions shared in this special journal. As you see differences in cultural experiences, you also see that at the heart of it all we have in common our same struggles and joys. I recommend this book! 0 of 0 people found the following review helpful. Breathtaking.... By Ashlee "Stray Thoughts/Winged Words" is one of the most beautifully written books of poetry I've ever had the pleasure of reading. To read this book is to know the author's heart and soul. There have been so many instances while reading this that I'd find myself smiling because what she wrote gives me a sense of recognition and joy in my heart. There are people and things we encounter in life that leave an everlasting mark on our souls.... this author and this book are two of those things. Do yourself a favor and let this book be one of your must reads. Simply fantastic.

For author Zakiah Sayeed, baring her soul to the world, releasing these intensely personal thoughts and feelings, is a freeing experience. Within these pages is solace and inspiration, happiness and sorrow, and a warm feeling of connection and shared understanding. Free verse poetry and flash fiction, it relies on stream of consciousness and ethereal connection cascading into awareness rather than preconceived rhythm and rhyme, her words true to the cadences of being, each a pulsemdash;a reflectionmdash;that when viewed in their whole portrays a stunning breadth of emotion with resonance and beauty. Combined with prose and artfully crafted letters that provide insight into her life, her children, and her grandchildren, her fearless honesty displays for all to see the truth of her being.
